10. Being Green: Energy Use and Conservation

Green Office Policy

10.5.5. Questionnaire

Some questions to help reflect on your own situation.

This is just an exercise for you, to help think about a green office policy.

What is the most substantial saving we can make?

(check all that apply)

- ☐ Our carbon footprint
- ☐ Our recycling
- ☐ A green-based budget saving

Or maybe something else?

Write it down here:

This is just an exercise for you, to help think about a green office policy.

Setting Green Objectives

(check all that apply)

- ☐ Have we defined a green objective (e.g., installing solar, satisfying a funding application)?
- ☐ Have we decided on when we will start such a project?
- ☐ Do we know how long we will spend on the project before reviewing whether it is going to be feasible or not?

Or maybe you have further details?
